Aimee Kestenberg is the driving force behind high-end accessories line, Jatalika. The brand name and logo has several meanings, combining the names of all the girls in her family, Jade, Tammy, Linda and Katie. Furthermore, the trademark and signature hardware of Aimee's custom-designed lion's head symbolises her personality, star sign (Leo) and inspiration all at the same time. Aimee is a Leo and feels that her personality encompasses all that a Leo is said to be, one full of warmth and optimism. Aimee uses the head of a lion for the intricate hardware adorning her new collection of exotic skin cuffs, handbags and necklaces.
